Prof. Bambang Sugiharto

Prof. Sirichai Kanlayanarat

Prof. Intan Ahmad

Prof. Koji Nakamura

Prof. Shin-ichi Nakano

Prof. Chang-deok Han

## The 2<sup>nd</sup> International Conference on Life Sciences and Biotechnology, ICOLIB-2017

The 2<sup>nd</sup> ICOLIB is a continuation of the 1<sup>st</sup> ICOLIB which has been held since 2015 with purpose to promote among scientists and professionals to stay at the leading edge of recent advances in life sciences. The ICOLIB is a forum for students, researchers, educators, observers and practitioners from university, research institutions, industry and general public, policy maker to exchange ideas and latest information in the field of life science and its application. The theme of the 2<sup>nd</sup> ICOLIB 2017 'Integrated Biological Sciences for Human Welfare' will underpin the need for collaboration and cooperation of individuals from a wide range of professional backgrounds. The scope of the 2<sup>nd</sup> ICOLIB covers several fields of studies, namely life sciences, environmental sciences, medical and pharmaceutical sciences, science of renewable energy, agricultural science and food security.

## INTRODUCTION

International Conference on Life Sciences and Biotechnology (ICOLIB) is biannual international, peer-reviewed conference focuses on life sciences, biotechnology and related fields such as health and medicine, agriculture, biodiversity, environmental, conservation, new and renewable energy.

After successful event of the 1<sup>st</sup> ICOLIB in 2015 “Exploration and Conservation of Biodiversity”, Biology Department, Faculty of Mathematics and Natural Sciences – University of Jember proudly present the 2<sup>nd</sup> ICOLIB 2017 with theme “Integrated Biological Sciences for Human Welfare”

The Conference invites researches, academia, educators, industrial practitioners and professional to meet and share knowledge and results of research. We look forward for significant contributions to all major fields of biology and biology-related fields in theory, methodology and application.

This conference covers all aspects of biological sciences such as gene and genome, cell biology, biotechnology, structure biology, biochemistry, botany, zoology, physiology, biosystematics, ecology, biodiversity, system biology, agriculture, food, health and medicine, environmental, new and renewable energy.
